

WESTERLY'S BOARD OF TRADE

Urged to Persistent Effort for Town's Interests—Addressed by Joe Mitchell Chapple—New Books for Library—Republican Rallies in Niantic and Ashaway—Funeral of John M. Murphy.

The regular monthly meeting of the Westery board of trade was held in the Town hall Tuesday evening. President Charles Perry presiding. The minutes of the previous meeting were read and approved. President Perry announced the appointment of Arthur M. Cottrell to the anti-tuberculosis committee.

A communication was received from the Connecticut board of trade, asking that a delegation be sent to the annual state convention to be held in Bridgeport during November. On motion of Joseph T. Murphy, the president was authorized to appoint three delegates to the convention.

President Perry then introduced Joe Mitchell Chapple of Boston. He told of meeting the student body of Kingston college, and the impression he received there he said put him in good condition for a talk to the business men of Westery.

In common with upwards of three
thousand names of employees of the
United States Lighthouse service, those
of the Watch Hill station will be
stricken from the payroll of the de-
partment of commerce and labor, No-
vember 17, and practically all of them
will be immediately unemployed, and
without any loss of wages. This ac-
tion will be taken as a result of the
reorganization of the present light-
house establishment into a new bureau
of lighthouses, authorized by act of
congress, passed in June of the pres-
ent year.

Combination Coal and Gas Crawford Ranges

The Crawford Gas Ovens are safe. They are lighted in a new way; there is no dangerous pilot light and explosions are impossible. This improvement is patented and very important.

The Damper is automatically opened by opening oven door to light the burners, which cannot be lighted until the door is opened.

In these Gas Ovens there is an extra set of burners at the top for broiling; a great advantage over the ordinary gas oven, insuring better broiling and great convenience.

The Oven Bottoms and Racks are cast iron, and the outer walls are triple—an interlining of asbestos between two sheets of iron, which assists to retain the heat.

The use of these Gas Ovens does not interfere in any way with the operation of the coal range—both can be used at the same time.

Double Oven above or Single Oven at end of range.
